7 of the many reasons you should be using this today:

1. 24/7 Sales
2. Credit Card or Member Charges
3. Inventory Management
4. Final Review of Sales
5. Run from Your PSK POS
6. Manage Your Site With No Additional Charges
7. On-Line Shipment Tracking

And So Much More...

The PSK Web Store opens your shop to the world. This patent-pending technology is connected to your PSK POS with real-time inventory and the ability to review orders for your approval.

Think locally and act globally. We can help you establish a big company image with a professional Web Store. All managed from your PSK Desktop. Your approved customers can charge to their PSK account and others can purchase with a credit card. All the sales show up in a queue on your PSK POS. Automatically generate shipping labels, packing slips, and package tracking for the customer.
